

Lose Weight Now! FAST BURN

- *Slow metabolism*
- *Fight hormone imbalance*
- *Control carbo-cravings*

Dr. Michael Hirt's Fast Burn is a three-step personalized nutrition weight loss program created in 1997. Since its beginnings, Fast Burn has helped countless people successfully lose weight and keep it off.

Patients can experience difficulty losing weight due to slow metabolism, carbo-cravings, and hormone imbalances. Vitamin and herbal supplements can be helpful to correct these imbalances and help keep the weight coming or staying off.

For the complete weight loss supplement program, ask for the "Fast Burn..Faster: Natural Weight Loss Supplements" Handout at Dr. Hirt's office.

We also have an extensive line of delicious low-carb food products to help you stay on the Fast Burn Diet and lose the weight you want...fast.

Please see pages 58-63 for our complete listing.

AppTRIM

by Physician Therapeutics

- *Stimulate your metabolism safely and effectively*
- *Assist fat burning*

AppTrim is an all-natural supplement invented by a Cedar-Sinai cardiologist to help patients lose weight. The main ingredient in AppTrim is cocoa, or chocolate. While many people can point to chocolate as a cause of their weight gain, I bet you never thought chocolate could help you take it off!

Raw cocoa contains metabolism-boosting nutrients that have been shown in clinical studies to increase weight loss.

AppTrim can help take off an additional half to one pound of weight each week, depending on just how slow your metabolism is. This weight loss effect takes about two weeks to fully kick-in.

7-KETO-DHEA

by Pure

- *Boost energy and metabolism*
- *Improve thyroid function*

Think of 7-keto-DHEA as WD-40 for your metabolism!

By helping your thyroid hormone do its job better, 7-keto-DHEA can help you lose more weight and have more energy.

7-keto-DHEA does all of this without affecting your thyroid gland or your thyroid hormone levels. 7-keto-DHEA has none of the hormonal effects of DHEA because it is a different molecule. Your metabolism starts to run as it should.

Feeling “Toxic” at a Heavier Weight?

NUTRA-KLENS

by MyBestHealth

- Quick Start Weight Loss
- 4-Stage Cleaning Process
- Refresh Liver Detoxification
- Complete 21-day Program

Weight seems to come on fast and leave slowly. You may also be feeling “toxic” at a heavier weight. The Fast Burn Fresh Start program is designed to detox your body, break your craving cycles, take off some quick pounds, and lead you right into a personalized weight loss program.

Push Your Body’s “Reset” Button!

The core of our detox program is Nutra-Klens, a clinically tested shake that contains all natural vitamins and herbs. Nutra-Klens limits the toxic burden going into the body and helps the body get rid of the current toxic load, achieving internal balance and cleansing.

Using a proven four stage cleaning program—Washout, Secondary Cleansing, Physiological Re-adjustment and Stabilization— Nutra-Klens will revitalize and re-

invigorate your health.

While it will assist you in losing weight, Nutra-Klens is also helpful for patients experiencing migraine headaches, muscle and joint pains, fibromyalgia, chronic fatigue, food allergies and intolerances, chemical and environmental sensitivities, skin problems, and alcohol and chemical dependency. These are often other signs and symptoms of being toxic.

The personal health choices we make in our hectic, go-go lives often turn our bodies into the human equivalent of a toxic waste Superfund site. It is no surprise that so many of us walk around feeling poorly and with nagging health problems.

With the help of Nutra-Klens, the Fast Burn Fresh Start program has consistently made a substantial difference in my patients’ lives...and I hope to count you as another success story.

For the complete program ask for the “Fast Burn: Fresh Start” handout available exclusively at The Center.

THE MORNING AFTER DIET PILL

by MyBestHealth

- Increase metabolism
- Burn calories faster
- "Delete" Key for your Diet

Wouldn't it be nice if you had a "Delete" Key for your diet?

The Morning After Diet Pill has been designed to be just that...a second chance to get it right. The Morning After Diet Pill helps dieters dramatically lessen the negative impact of bad food choices by supporting them in three ways: metabolism, calorie absorption, and water retention.

The Morning After Diet Pill contains a special blend of herbs that support your body's metabolism. The faster your metabolism can be revved up, the faster you burn calories.

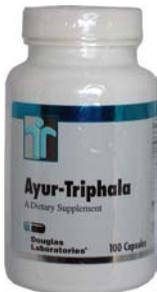

Even if you are sticking to your diet, The Morning After Diet Pill can support your body in achieving your weight loss goals by supporting your metabolism, assisting your body with bloating, and helping your intestines' ability to push food through without absorbing all of the calories.

We all make diet mistakes, but you don't have to live with them. And when you have just blown your diet, The Morning After Diet Pill helps you wipe the slate clean and flush your mistakes to give your diet another fresh start. Ask for "The Morning After Diet Pill" handout for complete details.

Move over, Metamucil AYUR-TRIPHALA & GUGGUL

It is normal and healthy to have a bowel movement daily. My recommendation has always been, "Never let the sun set twice without a bowel movement."

However, any change in diet can upset your bowels and make you less regular. If you are having problems, our Natural Pharmacy stocks supplements to support normal bowel function.

Triphala is an ancient Ayurvedic constipation remedy and contains three fiber-rich herbs. When combined with Guggul, another Ayurvedic supplement, both can also help lower cholesterol.

Ayur-Triphala and Guggul are non habit forming laxatives and can be used as long as needed.

Greased Lightening CASTOR OIL

by Nutritional Counselors of America

Castor oil has always been a safe and reliable laxative, but its bad taste has kept it in the medical history books and out of the medicine cabinet.

Our Natural Pharmacy stocks Castor Oil capsules which have all of the potency of castor oil with none of the aftertaste. In Ayurvedic traditions, castor oil is used to detoxify the body and reduce arthritis pain.

The usual dose of Castor Oil is one to three teaspoons once or twice daily. Approximately five Castor Oil capsules are equivalent to one teaspoon of Castor Oil.

Weight Loss Insurance

REDUCE

by MyBestHealth

- Win Battle of the Bulge
- Maintain muscle mass

Reduce is a standardized extract derived from natural vegetable oils that has been shown in clinical studies to help patients maintain their body fat-to-muscle ratio after weight loss.

Every dieter lives in fear that one day, some day, they might regain all of their weight. Dr. Hirt's personalized weight loss program is designed to help patients win the "Battle of the

Bulge" permanently.

By helping to maintain muscle mass after weight loss, Reduce helps to maintain the body's metabolism which is necessary for fat burning to continue and prevent weight regain.

Think of Reduce as weight loss insurance.

Stepping Up

Fast Burn

Fast Burn is a three step program that allows me to re-engineer your diet.

- Step ONE: Weight Loss
- Step TWO: Food Testing
- Step THREE: Maintenance

Most patients stay on Step ONE until they are very close to their weight loss goal. Then, Step TWO starts with the re-introduction of foods, one at a time. This allows us to evaluate how your body responds to specific foods, and it is impossible to determine this until you have lost most of your weight.

Finally, Step THREE balances the proportions of carbs, fats, and proteins in your personalized diet that let's you enjoy long-term successful weight loss. You will finally understand what your body is really designed to eat and how to fuel your body so you always feel and look your best.

The Fast Burn: Success Made Simple will serve you well in each of the Three Steps of **Fast Burn**.

The Answer to the Snack Attack

HUNGRY?

When you are on a diet and a “Snack Attack” hits, it can be very hard to resist your cravings for foods that you know are not good for your diet.

Whether you are trying to lose weight, drop your cholesterol, control your blood pressure or lower your blood sugar, the shift from your old habits to your new healthier lifestyle can be frustrating, especially when

your taste buds are slow to come around to the new foods.

Over time, the healthy habit patterns you practice today will help you make the best decision when a craving hits. During this transition, most of our patients find it very helpful to have “quick ‘n easy” snacks nearby so that your best diet decision is right at your fingertips.

With these healthy and convenient snacks around, you will find it easy to stay right on track.

STARTER PACK

Like any other part of your diet, it’s important to put some thought into what kind of snacks to have on hand; otherwise it’s all too easy to pick something high-calorie, high-fat, or high-sugar. Snacks can also play an important role in maintaining blood sugars, energy levels, balance in our diets, and more importantly can help prevent us from overeating at the next meal.

Now, the question remains, what do we snack on? For your convenience: we’ve put together a starter pack that provides a great range of snacks to choose from, and it’s made easier with single serve and ‘grab ‘n go’ pack formats that can be eaten ‘on the run’.

Starter Kit contains: 2 boxes of Bariatrix Bars, 1 package of Ready-To-Go Shakes, 1 bag Flax Snax
